

COVID-19 Safety Policies

Exhibitor Best Practices

- Proof of negative COVID-19 test results or vaccinations will not be required to participate in AUA2021 activities and programming.
- Booth capacities and incorporation of plexiglass dividers are at the discretion of the Exhibitor.
- Fully vaccinated attendees, exhibitors, vendors, staff, and guests do not need to wear a mask, though may do so as a personal preference.
- All unvaccinated attendees, exhibitors, vendors, staff, and guests should wear a mask and maintain 6 feet social distance while attending indoor activities at the meeting, per CDC guidance.
- Exhibitors and attendees occupying a booth should be mindful of personal space during product demonstrations.
- If attendees are permitted to demo a product, be sure to clean and sanitize item(s) in between use.
- Exhibitors will be responsible for supplying disinfectant wipes for their booth(s) and maintaining a clean environment, including all high-touch surfaces, throughout show hours.
- Exhibitors will have the option to order enhanced cleaning and disinfection services for their booth(s) through the [Exhibitor Service Kit](#).
- Please visit [here](#) for complete AUA2021 Safety Policies.
- COVID-19 Safety Policies are subject to change as conditions evolve and new information becomes available.
